## Captain's Log:

Horses! Mint Juleps! Bugles! Hats fit for a Queen! Ladies on Parade! Everyone, Saddle Up, because we are going to Lexington, Kentucky with Irene and Sharon. We will host a **Best in Show Hat Contest** while Sharon and Irene share their Pilot International Convention thoughts and ideas with us during the August meeting. Please wear a hat to the meeting, the bolder the better because we are going to the Kentucky Derby! We will place the hats First, Second, Third.

I encourage everyone who has a computer to go on the *Pilot International Website* and the *GA District Website* to learn all that you can about Pilot Club. [www.pilotinternational.org](http://www.pilotinternational.org) and [www.pilotgeorgia.org](http://www.pilotgeorgia.org)

This is a great organization that we are part of and building enthusiasm for our great club will translate into new members. The more you feel comfortable with all of the Pilot Club's projects, calendars, awards, and scholarships, the more you will know why things are done a certain way and the more you will want to share that with another friend or acquaintance.

### Where do we find new prospective members?

- Relatives including: daughters, sons, spouses, cousins, etc.
- Relatives of people whom your service projects have helped
  - Friends and neighbors
  - New residents in the community
  - Teachers and Librarians
  - Business people
  - News reporters
  - Club guest speakers
  - Former Anchor members

This is really just a once-a-month commitment for most people, and admits it, we have a lot of fun together. If we all think of two people invite to our next meeting, we could conceivably run out of food! Wouldn't that be something to talk about the next time a PI dignitary visited us?

Love ya'll,  
Kathryn Hill - Eatonton Pilot Club President

### Summer Hint

Everyone has problems with fruit flies during the summer. Here is how to get rid of them.

Take a small jar, fill it  $\frac{3}{4}$  full with vinegar and add 2 drops of dish washing detergent. Cover the jar with clear plastic wrap secure with a rubber band, polk small holes in the wrap. Place it on the counter near where you have the flies. They will crawl down into the jar and then cannot get out. They will fall into the Liquid and die. Really works.
